

Safety in the Workplace

everything you need to know to ensure safety of your staff at construction sites

CIDB

www.zohlgroup.com

COURSE CODE: NT-WE-16

LEVEL: Basic

LANGUAGE: Bahasa & English

OVERVIEW

Workplace safety is the responsibility of everyone in an organization. Companies have legal obligations to meet certain safety requirements, but many go further than the minimum obligations. Safety standards and procedures must be put in place, and everyone needs to follow the standards in order for them to be effective.

Our Safety In The Workplace course will be instrumental in reviewing common hazards, safety techniques and after completion, the participants will have the tools to help them create a Safety policy for your work place. By identifying and anticipating hazards, employers can prevent injuries and keep employees safe whether in the head office or at the construction sites.

OBJECTIVES

At the end of the program, participants should be able to:

- Understand the general requirements of OSHA
- Identify the key hazard areas and sectors in the construction environment and set preventive measures
- Apply personal safety measures in the workplace and at construction sites
- Develop a safety conscious team mindset that is proactive

COURSE OUTCOME

Upon completion of the course, the participant will be able to:

- Interpret the salient provisions of the Occupational Safety and Health Act 1994 and its Regulations and relate its application to the workplace
- Identify the cause and effects of accidents, key hazardous areas in the workplace and implement preventive measures
- Appreciate the benefits of creating safe work culture at work place
- Understand the roles and responsibilities of management and employees in implementing OSH at the workplace in compliance with the provisions of the OSHA 1994

COURSE DURATION

2 days (9am—5pm)

Tea Breaks: 10:30am & 3:30pm | Lunch: 1:00pm-2:00pm

Note: Please contact our office for Training Date or visit our website for details (www.zohlgroup.com)
