

PERSONAL PROTECTIVE EQUIPMENT

Awareness Training Program

HRDF

www.zohlgroup.com

COURSE CODE: NT-SHE-07

LEVEL: Basic

LANGUAGE: Bahasa & English

OVERVIEW

This PPE Training course is designed to familiarise employers, senior staff, and employees with all the fundamental aspects of PPE that is used in work environments. The course looks at legislation relating to PPE, the various types of PPE that protect workers from hazards, and how to determine the need for PPE. With this knowledge, learners will be fully prepared to select and use PPE properly so health and safety is upheld at work.

OBJECTIVE

Upon completion of this program, the participants will be able to:

- Understand the legal requirement in the usage of PPE at the workplace
- Appreciate the importance of PPE in accident prevention program
- Identify various types of PPE in the workplace
- Understand the correct and proper method in using PPE in order to ensure its effective usage
- Effectively manage PPE at workplace in accordance to legal requirements as well as to basic hygiene requirements .

COURSE DURATION

2 days (9am—5pm) | Tea Breaks: 10:30am & 3:30pm

Lunch: 1:00pm-2:00pm

Note: Please contact our office for Training Date or visit our website for details (www.zohlgroup.com)

METHODOLOGY

This program will be delivered through Case studies, which are built through actual working environments, Small group practical exercises, Small group discussion, Facilitator presentations, Skill practices, application planning and walk-through simulations.

TARGET AUDIENCE

This Personal Protective Equipment training is suitable for anyone who works in an industry with high-risk activities, which often require the use of additional protection beyond other control measures. It is particularly useful for people in charge of upholding health and safety at work and selecting and providing PPE, such as employers and supervisors. But it is also suitable for employees, as it fully educates learners on how to meet legal requirements and use PPE properly.

LOCATION

Mindset Discovery Center™@ZOHL, Bandar Sri Damansara, Kuala Lumpur or Client's Preferred Location or selected venue in the Region(s)

KEY TAKEAWAYS

By the end of this course, learners will have a thorough understanding of:

- What personal protective equipment is, the relevant legislation relating to it, employers and employees' duties, and why it is important in the workplace.
- How to decide if PPE is needed, how to carry out a risk assessment, how to properly select PPE, and how to use it effectively.

- The importance of safety signs, thoroughly maintaining and properly storing equipment, and ensuring that it is suitable for its intended user.
- The various breathing, skin, and eye protective equipment available - including what industries they would be suitable for and how you can maximise their effectiveness.
- The various ear and head protective gear available - including what workplaces they would be suitable for and how you can determine the need for ear PPE by monitoring noise levels.
- The various body and foot protective equipment available - as well as what workplaces and workplace activities may require them. This includes the importance of high visibility attire.

3. Or contact our office at: 03.6279 9276 / 013.398.1038

FACILITATOR

NG SOON KIANG is a Bachelor Degree holder of Chemistry with Minor in Management. He started his career as Production Shift Supervisor in a US-based medical glove manufacturer before moving to R&D line in an Australian glove manufacturer as an R&D Chemist over a total of 8 years. He then served as Senior Chemist in Quality Control Laboratory in Metal Smelting for 8 years and later moved to Wood-based Manufacturing Sdn. Bhd. as an R&D Manager.

The 16 years experience in science and technology has strengthened his grasp in both analytical thinking and quality practices. His conscience for quality products was nurtured through US FDA audits on medical products. He has co-developed a patented (patented in USA) hydrogel coating for surgical gloves. He has also developed pre-curing formulations for latex which was later used in the production of examination gloves with a capacity of 500,000 pieces per day. The time in MIECO was spent developing formulations for particleboard and paper laminates.

He held the position of head of department of R&D, EHS and Regulatory Affairs in Wood-based Manufacturing Sdn Bhd. During 2007 and 2008, he was the head of QA/QC department responsible for incoming, in-process and outgoing quality while attending to quality complaints. Since 2007 he has become the Management Representative for QMS, EMS, OHSAS, JIS and PEFC-CoC.

He clocked over 450 hours of external training mostly under CIDB. He has just been certified by HRDF as a certified trainer. The list of subjects specialized include:

- ISO 9001:2015 Awareness
- ISO 9001:2015 Internal Auditor Risk Management
- Time Management & 7 QC Tools

In addition, she is also a Technical Trainer in HSE @ZOHL.
